

# **Roman battery storage box manufacturer**

## Overview

---

What are battery storage boxes for lithium-ion batteries?

Battery storage boxes for lithium-ion batteries. Ensure safe storage of your lithium-ion batteries with our specially designed RETRON containers. These protect your batteries from damage and minimize the risk of fire during charging, storage and transport.

When was the first battery enclosure made?

Our first battery enclosure was produced in Europe in 2011 for a hybrid electric vehicle. Magna provides a comprehensive range of battery enclosure production and engineering solutions, available in steel, aluminum, and innovative one-piece designs.

What is a lithium battery container system?

Our container system for the safe charging and storage of your lithium-ion batteries and devices with lithium batteries. Rely on our container system to protect your batteries from damage and ensure maximum safety during transport.

Who makes aluminum battery casings?

They have honed their focus on the automotive industry, particularly on its electrification, ascending to become the supplier of aluminum battery casings and exterior parts. Their global footprint is underscored by strategic partnerships and joint ventures, notably with the Renault Group for manufacturing battery casings in France.
