

San Diego Charging Pile Energy Storage Project

Overview

Construction is now underway for the 127-MW DC solar, 280-MWh storage project, and the system is expected to come online next year. How much battery storage does SDG&E have?

SDG&E's utility-owned battery storage portfolio is expected to reach nearly 480 MW of power capacity and over 1.9 GWh of energy storage by year-end, including the Westside Canal expansion and two additional projects in San Diego County currently being constructed.

Will 131 MW energy storage facility be fully operational by June 2025?

This expansion project will add 100 megawatts (MW) of energy storage capacity to the existing 131 MW facility and is projected to be fully operational by June 2025. This expansion project will add 100 megawatts (MW) of energy storage capacity to the existing 131 MW facility.

What is SDG&E's Westside Canal expansion?

Following the expansion, SDG&E's Westside Canal complex will feature 231 MW of energy storage and will be the largest asset in SDG&E's utility-owned battery storage portfolio.
