San Diego is installing a solar power system

Overview

What is the range of solar panel installation costs in San Diego?

Prices range from \$10,030 to \$13,570 for a 5 kW solar panel installation in San Diego, CA. As of August 2024, the average cost is \$2.36/W including installation.

Should you install solar panels on your San Diego home?

Installing solar panels on a San Diego home can be beneficial as it involves simple equipment with no moving parts that is homeowner installation friendly and generates AC power to reduce your home electrical costs. This enhancement to your home also increases its value without increasing your property taxes.

How much does solar cost in San Diego County?

The average price per watt of solar power in San Diego County, CA is \$2.55/W. These prices are before incentives. After the federal solar tax credit, the final cost will drop by 30%, down to \$11,458 for a 6.41 kW system. Many states even offer local rebates and incentives that lower the price further--sometimes by thousands of dollars.

Who manufactures San Diego solar panels?

Blue Pacific Solar® is an American based company that sells San Diego solar panels at wholesale prices, typically used for grid-tie and off-grid systems. Our company takes on the challenge of helping homeowners and independent minded people create their own energy.
