

# San Marino UPS Specifications

## Overview

---

What is an uninterruptible power supply (UPS)?

Uninterruptible power supplies (UPS) are backup batteries that provide emergency power to electrical systems in case power becomes unavailable. They are connected between a power source (such as an electrical outlet) and the equipment to protect (such as a motor or computer).

Are Eaton marine ups safe?

Eaton's marine UPS are tested and proven for shipping environments to ensure consistent flow of reliable, clean and safe power for the ship's operations. Eaton marine uninterruptible power supplies (UPS) are specially engineered for shipping environments and applications, built to meet or exceed industry standards.

What is a 9sx Marine UPS?

DNV-GL type approved 9SX Marine UPS with installation kit and Marine filter. Double-conversion topology. The Eaton 9SX Marine constantly monitors power conditions and regulates voltage and frequency.

What certifications are available for Eaton Marine UPS?

Project certification for larger ratings and/or other major marine class society certification are available as well. Eaton marine UPS are designed with double-conversion online topology which is the preferred choice for marine use as it protects against all types of power disturbance.
