

# Seoul solar Curtain Wall Customization

## Overview

---

What is photovoltaic curtain wall?

Introduction: Photovoltaic Curtain Wall refers to a new type of building exterior wall system that combines solar photovoltaic power generation technology with building curtain walls.

How does a solar curtain wall work?

This system integrates photovoltaic components (such as solar panels) into the building curtain wall so that the curtain wall not only has traditional enclosure, decoration, and insulation functions but also can convert solar energy into electrical energy, providing green and clean energy for the building. Features

- 1.

What is a curtain wall?

Curtain walling refers to a non-structural cladding system made from fabricated aluminum, commonly used on the outer walls of tall multi-storey buildings. This lightweight material offers ease of installation and can be customized to be glazed, opaque, or equipped with infill panels.

What is harmonyfab's photovoltaic curtain wall?

Products Features

Harmonyfab's photovoltaic curtain wall has a fashionable appearance and customizable colors, which can meet various design requirements and add a touch of brightness to green and environmentally friendly living. Introduction:
