

# **Singapore solar container outdoor power Factory**

## Overview

---

Will solar canopies be installed at Singapore's ports?

Over at Singapore's ports, MPA is considering erecting solar canopies over the container storage yard and roads within Tuas Port, which is being built in phases and will be fully completed in the 2040s. At Jurong Port, which has been in operation since 1965, the idea is to install solar canopies over the steelyard and roads there.

Does Singapore have a solarroof programme?

To optimise the full solar capacity of Singapore's industrial buildings, JTC has extended the SolarRoof programme to lessees of privately leased industrial properties to make solar adoption easy, accessible and with zero capital outlay.

How many kWh can a solar panel generate in Singapore?

Dr Lin said: "In Singapore, each square metre of solar panel can generate approximately 250 kWh (kilowatt-hours) of electricity annually. Given the expansive areas available in the ports, this presents a huge opportunity for renewable power generation for Singapore."

What is Singapore's solar farm project?

The project will be a major boost to Singapore's efforts to harness more renewable energy; the solar farm is expected to produce 141 MWp of clean energy.
