

# Slovenia solar panels

## Overview

---

How much does solar energy cost in Slovenia?

In Slovenia, the average annual solar energy yield in Slovenia is around 1038 kWh/kWp. 2 The average cost of electricity for household consumers in Slovenia is approximately \$0.2247 per kWh, while the cost excluding taxes is around \$0.1819 per kWh. 3.

Does Slovenia have a reliable electricity grid?

Slovenia boasts a generally reliable electricity grid with a robust transmission network that ensures uninterrupted and high-quality power delivery. However, grid reliability can be impacted during winter periods due to increased energy demand and reduced solar power output. 4 We can help you start your own solar module production company.

What is Slovenia's energy industry like?

Slovenia's energy companies are active in developing innovative electricity transmission and distribution solutions, while the country's energy infrastructure is among the strongest in the region. Ministry of the Environment, Climate, and Energy Langusova 4, SI- 1000 Ljubljana, Slovenia.

Where does Slovenia's electricity come from?

Approximately one-third of Slovenian electricity consumption is derived from two brown-coal and lignite fired power stations. These ageing power stations account for all of the domestically mined coal.
