

Small solar lighting storage container

Overview

What is a shipping container solar lighting kit?

Shipping Container Solar Lighting Kits provide lighting in shipping containers and storage areas with 2 days of battery technology for cloudy, rainy, or snowy days with 8 hours per day of run time.

What are solar lighting fixtures for shipping container?

Sun-In-One LED lighting fixtures for shipping container solar lighting kits provide you with enough light to get equipment or supplies out of the container, up to high-quality lighting, and allow you to use the shipping container as a workshop and have enough light to do fine detailed work.

Are solar-powered shipping container lights energy efficient?

All our powerful lighting options are energy efficient and designed to meet the standards of both public and private projects. Our durable, solar-powered exterior shipping container lights are three times brighter than standard solar lights. They enhance the security around the outside of your container or office.

Can you put solar lights in a shipping container?

Our exterior solar-powered lights are easily mounted to the outer walls of your shipping container using strong magnets. This ensures secure placement and easy adjustments to position the light where it's needed most. Can I add lighting to my container after it has been delivered?
