Solar 5kw solar container power supply system

Overview

What is a 5kw Solar System?

A 5kw solar system reduces your monthly utility bills, which accumulate to significant savings over a year and through to the 25+ years of lifespan of your solar panel system. Your solar panels will generate an enormous amount of solar electricity to power your home throughout the year, reducing your grid electricity withdrawals.

What appliances can a 5kw Solar System run?

Some of the main appliances that a 5kW system can run have been mentioned earlier, but for reference it best we give greater detail. The most common appliances that can be run on a 5kW solar system include your high definition television, air-conditioning unit, refrigerator and washing machine.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.
