## Overview

---

Which companies have energy storage projects?

Quidnet Energy, ENBW, and Peak Energy have energy storage projects in the works in the U.S. and Europe. Google has partnered with Energy Dome to scale long-duration carbon dioxide battery storage to advance its carbon-free goals. Tesla's \$3.4 billion battery project with LG Energy leads tech business news this week, along with moves by Toshiba.

Does a battery energy storage system have a problem?

Operational issues hit returns in one in five battery storage projects, report finds A recent report from battery intelligence firm Accure reveals that while most battery energy storage systems (BESS) operate reliably, nearly 19% of projects experience reduced returns due to technical issues and unplanned downtime.

How much money has eolian secured for energy storage?

US energy storage businesses secure more than \$1 bn in flurry of deals Eolian, Energy Vault, NineDot and Greenflash have secured more than a billion dollars between them to advance their energy storage plans.

What is the enervis Battery Storage Index?

Enervis Battery Storage Index: Revenues recover in August following July slump The index provides independent assessment of historical and potential revenues for large-scale battery energy storage systems (BESS) in Germany.
