# Solar panel installation in New York USA

## Overview

---

How much do solar panels cost in NYC?

The cost of solar panels in NYC will come down to the system size, panel type, and installation complexities. Residential systems can vary in price from \$20,000 upwards before any incentives or rebates. To get the exact price, you can receive a quote from us and find out about the solar incentives available in NYC.

Do solar panels work in New York?

Solar panels still work great in cold temperatures and can withstand the harsh winters New Yorkers get upstate. With 4 to 4.5 peak sun hours each day, New York gets plenty of sun for your solar system to produce energy, but depending on where you are, you may need a few more panels than other places to meet all of your energy needs.

Which company should I choose for solar in New York?

Here are the top companies we recommend for solar in New York: SUNation's mission is to create a more sustainable world through renewable, clean energy for generations to come. With an outstanding customer experience, we strive to help our communities take control of their energy usage through clean, reliable solutions. S.

Who is Brooklyn solarworks?

Brooklyn SolarWorks has applied creative design and installation approaches that match the diversity of the local building stock, while meeting the specific needs of clients. Which type of building do you need solar solutions for?

Homeowners in NYC are often told by other contractors that solar won't work for their home.
