

Solar panels at the Amman factory

Overview

Is Amman a good place to install solar panels?

The topography around Amman, Jordan is hilly and mountainous. Areas to the east of Amman, including the Zarqa Governorate and parts of the Madaba Governorate, are mostly flat and would be most suitable for large-scale solar PV installations.

How to optimize solar generation in Amman Jordan?

Assuming you can modify the tilt angle of your solar PV panels throughout the year, you can optimize your solar generation in Amman, Jordan as follows: In Summer, set the angle of your panels to 16° facing South. In Autumn, tilt panels to 36° facing South for maximum generation.

Why is Amman a good place to start a solar business?

Amman, the capital city of Jordan, stands as a pivotal supply chain center for solar companies. It's home to numerous businesses that specialize in solar panels, inverters, and other renewable energy technologies. Companies here benefit from strategic logistical advantages, including access to major transportation routes and a skilled workforce.

How much solar power does Amman have?

Seasonal solar PV output for Latitude: 31.9555, Longitude: 35.9435 (Amman, Jordan), based on our analysis of 8760 hourly intervals of solar and meteorological data (one whole year) retrieved for that set of coordinates/location from NASA POWER (The Prediction of Worldwide Energy Resources) API: Average 8.77kWh/day in Summer.
