

# **Solar panels installed in Pecs Hungary**

## Overview

---

Does Hungary have a solar energy program?

Hungary's advancements in its solar energy program are evident in how quickly the highest capacity solar power plants have been outdone by newer plants, as shown throughout the article. Hungary is currently experiencing rapid advances in solar power.

What is the largest solar project in Hungary?

The Hungarian Electricity Works (MVM) energy group constructed it, funding 65% of it and utilizing EU subsidies to cover the remainder. Like Kapuvár Solar Park, Paks Solar Park took the title of the largest solar project in Hungary during its establishment in 2019. Annually it is capable of providing electricity for roughly 8,500 homes.

Where is Pécs solar park located?

At the time of construction, Pécs Solar Park was one-eightieth the size of what was then the world's largest solar park, located in Topaz, California. Hungary reported a leap in solar power production from 0.5% in 2016 to 4% in 2019, and these numbers are steadily rising.

How much does Pécs solar park cost?

It consists of roughly 38,000 solar panels and cost between 3.5 and 4 billion Hungarian forints (a little over 10,000,000USD) to complete. At the time of construction, Pécs Solar Park was one-eightieth the size of what was then the world's largest solar park, located in Topaz, California.
