Solar power monitoring system in Johannesburg South Africa

Overview

Is Johannesburg a good location for solar PV generation?

Johannesburg, Gauteng, South Africa, situated at a latitude of -26.3811 and longitude of 27.8376, is a favorable location for solar PV generation due to its relatively high average daily solar irradiance throughout the year.

Where should solar panels be located in South Africa?

Lastly, in Spring, position your panels at a 20° angle facing North to capture the most solar energy in Johannesburg, South Africa. Our recommendations take into account more than just latitude and Earth's position in its elliptical orbit around the Sun.

Who are the best solar companies in South Africa?

Discover the leading solar companies in South Africa for 2025 including global manufacturers like JA Solar, JinkoSolar, and Grace Solar. Compare services, technologies, and find the best solar solutions for residential, commercial, and utility projects.

How to optimize solar generation in Johannesburg South Africa?

Assuming you can modify the tilt angle of your solar PV panels throughout the year, you can optimize your solar generation in Johannesburg, South Africa as follows: In Summer, set the angle of your panels to 10° facing North. In Autumn, tilt panels to 32° facing North for maximum generation.
