How much does a solar system cost in Dubai?

Unfortunately, there is no concrete price tag to turning your Dubai home solar at the moment. The cost depends on a number of factors including the size of the system, the system manufacturer, retailer, and installer. According to DEWA, between 30-50% of the total installation cost is for the PV modules.

How does Dubai home solar work?

It works with the use of a Photovoltaic (PV) system that uses cells made up of semiconductors to convert sunlight into electricity. Turning your Dubai home solar with DEWA involves several steps to install the solar panels. Setting this up does require an initial investment, but over time solar is cheaper than traditional energy sources.

Should you buy a solar power home in Dubai?

That said, there are certain technicalities to consider before going for a solar power home in Dubai. It's quite obvious that only owners of villas in Dubai can currently use solar energy. The roof orientation, shading and surface area determine whether you can efficiently generate solar power.
