

Solar power station for sale in Australia

Overview

What is a portable power station?

Portable power stations, also known as portable solar generators or power banks, are compact and lightweight devices designed to store electrical energy and provide power when you're off the grid or during power outages.

What is a portable solar generator?

By combining our lithium portable power stations with off-grid solar systems, folding solar blankets, these kits give you everything you need to generate, store and use clean power, wherever your Australian adventure takes you. Unlike a fuel-powered inverter generator, a portable solar generator runs silently and produces no fumes.

Are portable power stations a must-have in 2025?

Whether you're powering a 4x4 trip, an off-grid shed, or prepping for emergencies, a portable power station is a must-have in 2025. With battery tech improving fast, today's solar generators offer huge capacity, fast charging, and solid reliability. Here are the top 5 power stations Aussies are loving this year — plus which one is right for you.

Which portable power station brand has the most sales in 2024?

A. EcoFlow is the No. 1 portable power station brand in the world based on sales and revenue in 2024. Data source: Frost & Sullivan, "2024 Global Portable Energy Storage Market Report." Research completed in April 2025.
