

Solar power storage for sale in Sao-Paulo

Overview

How much is a solar farm worth in so Paulo?

Portuguese energy group EDP has put two major solar farms in São Paulo State up for sale, according to sources consulted by Valor. Negotiations are still in the early stages, and the assets are valued by the market at between R\$1.6 billion and R\$1.8 billion, based on their enterprise value—which includes both equity and net debt.

Will Brazil conduct the first energy storage auction?

Brazil is set to conduct the country's first-ever energy storage auction for adding batteries and storage systems to the national power grid.

Why does Brazil conduct solar power auctions?

Brazil typically conducts auctions to secure power capacity for periods when demand peaks but supply diminishes, such as late afternoons – a time when solar power production declines. The June 2025 auction, exclusively for batteries and storage systems, is the first time the government allows such technologies to participate.

Will M&A activity continue in Brazil's solar energy sector in 2025?

Mergers and acquisitions in Brazil's solar energy sector surged 76% in 2024 compared to the previous year, according to consulting firm Greener. Despite tighter profit margins, the expectation is that M&A activity in the energy sector will remain strong in 2025.
