# Solar roof tile lifespan

## Overview

---

How long do solar tiles last?

The lifespan of solar tiles is 25 to 30 years. Steel roofing tiles and sturdy, durable glass solar tiles are used to construct solar roofs, which also come with sizeable warranties. Solar shingle installation can take up to a week. However, with routine maintenance, solar tiles can last longer than the typical 25-30 years.

What is the life expectancy of roof tiles?

The life expectancy of roof tiles is dependent upon many things, varying from product to product and also by manufacturer.

How long does an Atum solar roof last?

An Atum solar roof has a long lifespan of 25 years. It is thermally insulated, which reduces the temperatures inside by 35-40%. By investing in an Atum solar roof, you would recover your investment in just 3.5 years.

Do solar roof tiles need maintenance?

The life span of the solar roof tiles is less than 10 years, so we aren't fully sure about what kind of maintenance is required there. It is the point to think that as long as the solar tiles are appropriately interconnected, they do not ask for any type of maintenance.
