What is a solar water pump?

Solar water pumps are an environmentally responsible solution for water supply. All our Solar Water Pumps include everything to get it up and running including complete installation, solar panels, power cable, mount frames for panels and an intelligent MPPT DC controller. Most of these pumps work with 32mm or larger pipes.

Can a Lorentz solar pump help a New Zealand farm?

Remote water sources will never again be a problem for New Zealand farms. With a Lorentz solar pump, you can draw water from anywhere and any source, or work with an irrigation system you already have and operate. With efficient water supply and management in place, good land is used to its full capacity.

What are the best water pumps NZ has to offer?

The best water pumps NZ has to offer makes use of solar power systems. Increase the supply of water and benefit from the abundance of clean, alternative energy with Lorentz pumps. If you have an excellent water source within your farm that's beyond the reach of any power source, it might well be worth a look.
