

# **Somalia s first wind power storage project**

## Overview

---

How many off-grid solar and storage projects are there in Zambia?

The MoEWR tendered for the provision of 46 off-grid solar and storage projects at education facilities last year, all in all totalling a little over 5MWh of energy storage capacity. The Zambia Ruida Mining Microgrid Power Project, which combines solar PV, BESS and diesel backup power at a mine in Zambia, has been commissioned.

What's happening with energy storage in Africa?

A roundup of energy storage news from across the continent of Africa, with Morocco's ONEE shortlisting bidders for a pumped hydro project, Somalia launching a grid-scale solar and storage tender, and a microgrid pairing grid-scale solar, BESS and diesel at a mine in Zambia. Morocco: utility ONEE progresses 300-400MW pumped hydro.

What is Somali electricity sector recovery project (SERP)?

The 'Somali Electricity Sector Recovery Project (SERP)' process is a two-envelope bidding process, without prequalification, and bids are due by 10 February, 2025. The contract would also involve building a 9km, 33kV evacuation line to connect to the a grid connection point run by by utility NECSOM in Garowe, Puntland State.

What is the 'SERP' process in Somalia?

The Ministry of Energy and Water Resources (MoEWR) of Somalia has invited bidders for the design, supply, installation, testing and commissioning of a 10MWp solar, 20MWh BESS project. The 'Somali Electricity Sector Recovery Project (SERP)' process is a two-envelope bidding process, without prequalification, and bids are due by 10 February, 2025.
