# South Tarawa Integrated solar container communication station Wind Power

## Overview

---

Does South Tarawa need solar power?

Constrained renewable energy development and lack of private sector participation. While grid-connected solar power is the least-cost renewable energy option for South Tarawa and there is significant resource potential of 554 MW, deployment has been limited.

Who produces grid-connected electricity in South Tarawa?

Grid-connected electricity in South Tarawa is generated and distributed by the state-owned Public Utilities Board (PUB), established under the Public Utilities Ordinance (1977, and further amended in 2000). The PUB's mission is to commercially provide and maintain quality, reliable electricity, water, and sewerage disposal services to Tarawa.

How much power does South Tarawa need?

The photovoltaic systems account for 22% of installed capacity but supply only around 9% of demand on South Tarawa; diesel generation supplies the remaining 91%. The PUB serves more than 57,000 people in South Tarawa, which has the highest demand at 24.7 gigawatt-hours (GWh) in 2019.

How many households in South Tarawa have electricity?

Of the 6,825 households in South Tarawa, 72.4% have access to grid electricity, mainly for lighting. Around 20%-25% of households are headed by women. 10.

## South Tarawa Integrated solar container communication station Wind

---

### GLOBALLY INTERCONNECTED SOLAR WIND SYSTEM ...

South Tarawa Wind and Solar Energy Storage Project The project will (i) introduce the first-of-its-kind near-shore marine floating solar photovoltaic power plant; (ii) install a battery energy ...

---

### POLICY REQUIREMENTS AND ECONOMIC AFFORDABILITY ...

The proposed South Tarawa Renewable Energy Project will install solar photovoltaic and battery energy storage system to help the government achieve its renewable energy target for South ...
