

FTMRS SOLAR

# Southern Europe Micro Inverter Export Brand

## Overview

---

How big is the European solar inverter market?

The European solar inverter market is set to grow from USD 2.85 billion in 2024 to USD 3.66 billion by 2029, with a growth rate of 5.06% annually. This growth is driven by government incentives, investments in solar energy, and a focus on reducing carbon emissions. Germany is the largest market, followed by the UK and France.

What drives the Europe solar microinverter market?

The Europe solar microinverter market is primarily driven by the growing number of solar power plants in the region. The increasing efforts by the European Commission to switch to renewable energy sources instead of fossil fuels are also propelling the market growth.

What is the outlook for the Europe solar microinverter market?

The Europe solar microinverter market exhibited robust growth during 2015-2020. Looking forward, IMARC Group expects the market to continue its robust growth during 2021-2026.

Which countries use the most solar inverters?

Germany is the largest market, followed by the UK and France. Central inverters for large solar projects are expected to dominate, while micro inverters for homes are also growing. Hybrid inverters, which combine solar and battery storage, are gaining popularity as more people seek energy independence.
