# **Southern European Energy Storage Cabinet Battery Company**

## Overview

---

Where does SSE Renewables operate?

SSE Renewables operates across the United Kingdom, Ireland, Continental Europe, and Japan. ENGIE UK is a utility company and Independent Power Producer (IPP) specializing in renewable energy generation, flexible energy storage, and energy supply solutions for businesses.

How does European energy use battery storage?

European Energy works actively to implement battery storage in our renewable energy projects. Our battery storage projects are primarily co-located, meaning a regular renewable energy park is combined with batteries on the same plot, sharing the same grid connection.

How is Europe building a low-carbon energy system?

Through top-level design and legislative coordination, Europe is building a low-carbon, sustainable, and highly resilient energy system. To achieve this grand strategic goal, Europe is accelerating investments not only in clean energy generation (the renewable energy sources ) but also significantly boosting efforts in the energy storage sector.

What is the market position of energy storage battery cell?

Market Position: Ranks among the top five globally in energy storage battery cell shipments, continuously strengthening its presence in the European market. Application Area: Primarily expanding into European utility-scale storage projects, providing cell products for large power stations, and gradually increasing market share.
