Where can I buy supercapacitors & ultracapacitor?

The link could not be generated at this time. Please try again. Supercapacitors & Ultracapacitors are available at Mouser Electronics from industry leading manufacturers. Mouser is an authorized distributor for many supercapacitor and ultracapacitor manufacturers including Cornell Dubilier, Eaton, Elna, KEMET, KYOCERA AVX, Maxwell, Vishay & more.

Why do supercapacitors cost so much?

Another major challenge associated with the cost of supercapacitors is the materials employed to prepare the cathodes to make supercapacitors economically viable energy storage options. Many of the materials used in supercapacitor electrodes, such as carbon-based materials and metal oxides, are expensive, which elevates the cost.

What is a supercapacitor?

A supercapacitor is a high-capacity capacitor with capacitance values much higher than other capacitors (but lower voltage limits) that bridge the gap between electrolytic capacitors and rechargeable batteries.

What are the latest developments in materials design for supercapacitors?

A review of the recent developments of materials design for supercapacitors is presented. Machine learning and 3D printing appear to be promising for flexible supercapacitors. Novel electrolyte materials include ionic liquids and anhydrous gel electrolytes. The challenges include the safety, the cost, and the durability of electrolyte materials.
