Swiss solar tile installation

Overview

Who makes solar roof tiles?

The Swiss solar manufacturer Megasol has been producing solar roof tiles for over 10 years. The latest version "Match" offers easy installation, high compatibility, and many design options. Megasol offers one to three standard formats per tile type, which can be combined with each other as required.

What is a solar roof tile?

The solar roof tile replaces conventional roof tiles and integrates seamlessly into the roof structure. Solar roof tiles from Schweizer are mounted directly on the roof battens, similar to traditional roof tiles. This eliminates the need for an additional substructure.

How do solar roof tiles work?

Solar roof tiles from Schweizer are mounted directly on the roof battens, similar to traditional roof tiles. This eliminates the need for an additional substructure. The size format is equivalent to five flat tiles, further accelerating installation. The uniform visible surface also facilitates visually attractive roof integration.

Which solar roof tiles are compatible with megasol?

In this way, the Swiss manufacturer achieves that "Match" is compatible with a very broad range of roof tiles. The solar roof tile from Megasol can be completely freely designed for sophisticated architecture. Megasol offers a wide range of colors and even the possibility to create individual colors.
