

Switzerland Zurich Energy Storage solar Project

Overview

What is solar & storage live Zurich 2026?

After the great success of Solar & Storage Live Zurich 2025, we are delighted to invite you to join us again in 2026 – as we continue driving the transition towards a brighter, greener future! Our mission is to accelerate the adoption of solar energy propelling us towards a global landscape powered by clean, renewable energy sources.

What is the future of electricity storage in Switzerland?

One important pillar of this strategy is the further development of electricity storage capacity in Switzerland. In the next years, three large-scale pumped hydro storage power plants will be connected to the grid. The first, the Limmern pumped storage plant (1 GW), should become operational in 2016.
