

## **The largest solar panel in western Wellington**

## Overview

---

What is the Wellington solar project?

This project consists of a 200MWdc solar farm at Goolma Road, Wuuluman. Construction on this project commenced in December 2019. Interested parties will be able to find all the information they need about the Wellington solar project here.

Where will the Wellington North solar plant be located?

The Wellington North solar plant will be situated on 970ha of land, of which approximately 806ha will include solar panels.

Where is Australia's largest solar plant located?

The plant is located in Balranard, New South Wales (NSW). It is being developed by Innogy. It'll be 14 kilometers south of Balranald. Once completed, the solar farm, which with roughly 872,000 panels on an area of 2224 acres is slated to be Australia's largest solar installation. The plant is located near Transgrid's 220kV electrical substation.

What is global solar power tracker?

Global Solar Power Tracker, a Global Energy Monitor project. Other names: Wellington North (Lightsource) Wellington North solar farm is an operating solar photovoltaic (PV) farm in Wellington, Wuuluman, New South Wales, Australia. Read more about Solar capacity ratings. The map below shows the exact location of the solar farm: Loading map.
