The latest news on UK energy storage solar companies

Overview

Who owns UK solar & battery projects?

Rivington Energy acquired 139 MW of co-located solar-plus-battery projects in England from Gridserve, adding flexible capacity and accelerating its British buildup strategy. Chint Solar and London-based Voltis formed a joint venture to develop roughly 5 GW of UK solar and battery storage, targeting bankable, grid-friendly projects.

How is the UK's solar energy and battery storage sector changing?

Introduction The UK's solar energy and battery storage sector is undergoing a rapid transformation, bolstered by ambitious climate targets and supportive policies. Solar photovoltaics (PV) capacity has rebounded since the end of feed-in tariffs, while energy storage is scaling up to enhance grid reliability.

Is NextEnergy UK bringing a 60 MW solar park online?

NextEnergy UK I brought a 60-MW solar park online—its seventh operating asset—adding reliable daytime capacity and future storage optionality in England. Shawton Energy secures Triodos Bank financing for its first 8.6 MWp solar park in Wales, boosting the UK's shift to sustainable energy.

Which UK solar projects did boom power sell to Enray power?

Boom Power completed the sale of two UK solar projects totaling about 110 MW to Enray Power, executing its develop-and-sell strategy. Ampyr Solar Europe secured planning consent for two UK solar parks totaling 52.5 MWp, including an integrated battery at one site to boost flexibility.
