

# Three energy storage projects in the Netherlands

## Overview

---

How many energy storage facilities are there in the Netherlands?

The vast majority of the 20 MW of installed energy storage capacity in the Netherlands is spread over just three facilities: the Netherlands Advancion Energy Storage Array (10 MW Li-ion), the Amsterdam ArenA (4 MW Li-ion), and the Bonaire Wind-Diesel Hybrid project (3 MW Ni-Cad battery).

What is the Netherlands Advancion energy storage array?

The Netherlands Advancion Energy Storage Array was commissioned in late 2015 and provides 10 MWh of storage to Dutch transmission system operator TenneT. The project, which represents 50% of all Dutch energy storage capacity, provides frequency regulation by using power stored in its batteries to respond to grid imbalances.

What is the energy storage project in Belgium?

The main energy storage project in Belgium is the construction and operation of an offshore “energy atoll” (essentially a manmade offshore pumped-storage facility), for which the Electricity Act has been modified in 2014 (see below), in order to support offshore wind-generated electricity production.

Why does the Netherlands need energy storage?

“As the Dutch energy transition efforts accelerate, the demand for flexibility is growing also. The challenges to our electricity grid have never been greater. Without adequate energy storage, the Netherlands risks increasing grid instability and security of supply risks,” Lion Storage said in its announcement.

## Three energy storage projects in the Netherlands

---

Dutch Potential Energy Storage: Innovations, Challenges, and ...

May 24, 2025 · Welcome to the Netherlands, Europe's unlikely energy storage pioneer racing against its 2030 climate targets. With Europe's highest solar panel density per capita [1], the ...

---

European research: Dutch energy storage ...

Apr 24, 2025 · In 2024, the Netherlands realized an installed capacity of 758 MW of electrochemical energy storage, with projected growth to 9 GW by ...

---

Energy storage comes of age in Netherlands with 300MW+ projects

Jun 25, 2024 · Lion Storage and Giga Storage have made major steps towards building BESS projects over 300MW in the Netherlands.

---

Dyness Knowledge , Overview of the Dutch Energy Storage Market: Energy

Jun 4, 2025 · Summary: Dyness - the "energy storage engine" of the Dutch energy transition "Make sunshine more valuable" - Dyness has been deeply involved in the Dutch market with ...
