Overview

How to promote the implementation of independent energy storage stations?

To promote the implementation of independent energy storage stations, it is necessary to further optimise the electricity market mechanism, segments and targets. Investor participation is beneficial for the development of the energy storage industry.

Where is CGN's energy storage project in Xinjiang?

On November 16, CGN (China General Nuclear Power Group Co., Ltd.)'s 200 MW / 800 MWh independent energy storage project in Lop County, Hotan Prefecture, Xinjiang officially started construction.

Will the energy storage industry thrive in the next stage?

The energy storage industry is going through a critical period of transition from the early commercial stage to development on a large scale. Whether it can thrive in the next stage depends on its economics.

How many electrochemical storage stations are there in 2022?

In 2022, 194 electrochemical storage stations were put into operation, with a total stored energy of 7.9GWh. These accounted for 60.2% of the total energy stored by stations in operation, a year-on-year increase of 176% (Figure 4).
