Turkmenistan telecommunications operator installs 5g base station

Overview

Does Turkmenistan have a 5G network?

By June 2025, Arkadag became the first city in Turkmenistan with a pilot 5G network, implemented in cooperation with China's Huawei and using the national satellite for backhaul . This 5G pilot is an exception – nationwide, Turkmenistan's mobile data operates mostly on slower 3G/4G technologies.

When did 5G start in Turkmenistan?

In February 2025, a 4G+ (LTE-Advanced) network was launched in the model "smart city" of Arkadag . By June 2025, Arkadag became the first city in Turkmenistan with a pilot 5G network, implemented in cooperation with China's Huawei and using the national satellite for backhaul .

Will Turkmenistan launch 5G in 2025?

In June 2025, officials claimed to launch 5G in Arkadag as a pilot – making it the first 5G deployment in Turkmenistan . This 5G network reportedly uses the TürkmenÄlem-52°E satellite to provide backhaul/frequency, given the lack of a robust terrestrial fiber backbone in that area .

Does Turkmenistan have a telecom policy?

Regional Cooperation: Turkmenistan has also engaged in some regional telecom discussions. It participates in the Regional Commonwealth in Communications (RCC), a post-Soviet telecom cooperation body.
