# Usb c power station in China in Brazil

## Overview

---

How EV charging is accelerating the adoption of electric mobility in Brazil?

In February 2024, Brazilian energy giant Raizen and Chinese automaker BYD announced a strategic partnership to deploy a vast network of 600 EV charging stations across the country. This initiative aims to meet the increasing demand for charging infrastructure and accelerate the adoption of electric mobility in Brazil. Key Benefits for Stakeholders:.

Does Mercedes-Benz sell EV charging stations in Brazil?

In September 2024, WEG became the new supplier of electric vehicle charging stations for Mercedes-Benz Cars & Vans Brazil. This partnership will provide WEG WEMOB WALL charging stations to customers purchasing electric vehicles, enhancing convenience, safety, and expanding Brazil's EV charging infrastructure.

Are charging stations going to be approved in Brazil?

In the Brazilian scenario, the process of approval and commissioning of charging stations is still under development and there is no forecast for responsible bodies, such as INMETRO, to issue an opinion on the subject.

How many electric car charging stations are there in Brazil?

There is also a growing interest among consumers for Brazilian electric car. The 3rd National Electric Mobility Yearbook of PNME estimates that Brazil will have 10 thousand public and semi-public charging stations by 2025. Based on this projection, it is estimated that more than 6,800 charging stations will be in operation by the end of 2024.
