

# **Victoria Air Energy Storage Power Station**

## Overview

---

What is a compressed air energy storage station?

"The compressed-air energy storage station offers large capacity, long storage time (over 4 hours), and efficient response, making it comparable to small and medium-sized pumped storage power plants," Liu Yong, Secretary General of Energy Storage Application Branch of China Industrial Association of Power Sources told the Global Times on Wednesday.

What is a compressed air energy storage project?

A compressed air energy storage (CAES) project in Hubei, China, has come online, with 300MW/1,500MWh of capacity. The 5-hour duration project, called Hubei Yingchang, was built in two years with a total investment of CNY1.95 billion (US\$270 million) and uses abandoned salt mines in the Yingcheng area of Hubei, China's sixth-most populous province.

What is the Silver City energy storage centre?

Dubbed the Silver City Energy Storage Centre, it will be Hydrostor's first large-scale compressed air plant and will be one of the first "adiabatic" systems in the Western world, if successfully brought online by its expected 2027 date.

Where is CAES power station located?

A landmark CAES power station utilizing two underground salt caverns in Yingcheng City, central China's Hubei Province, was successfully connected to the grid at full capacity on Thursday, marking the official commencement of its commercial operations.

## Victoria Air Energy Storage Power Station

---

World's Largest Compressed Air Energy ...

Aug 21, 2023 · The power station, with a 300MW system, is claimed to be the largest compressed air energy storage power station in the world, with ...

---

World's largest compressed air energy ...

Jan 10, 2025 · A 300 MW compressed air energy storage (CAES) power station utilizing two underground salt caverns in central China's Hubei ...

---

300 MW compressed air energy storage station starts ...

Apr 9, 2024 · The 300 MW compressed air energy storage station in Yingcheng started operation on Tuesday. With the technology known as "compressed air energy storage", air would be ...

---

Compressed air energy storage at a crossroads

Apr 9, 2024 · Compressed air energy storage (CAES) is considered a mature form of deep storage due to its components being firmly "de-risked" but few projects are operating in the ...
