Vietnam energy storage foreign trade

Overview

Is Vietnam a good market for energy storage solutions?

Vietnam represents a promising market for German and European small and medium-sized enterprises (SMEs) specialising in energy storage solutions, thanks to their technical expertise and established reputation in RE technologies.

Who manages the electricity sector in Vietnam?

The government manages the sector through the Electricity and Renewable Energy Authority (EREA), the Electricity Regulatory Authority of Vietnam (ERAV) and the National System and Market Operator (NSMO) under the Ministry of Industry and Trade (MOIT).

What is the energy supply to the transport sector in Viet Nam?

The energy supply to the transport sector in Viet Nam constitutes 23% of total primary energy supply in 2020. Today, the sector is almost exclusively fuelled by petroleum products, with the transport sector consuming around 85% of the total oil use in Viet Nam. As a result, the transport sector accounts for 15% of CO2 emissions.

Why do we need battery energy storage systems in Vietnam?

At the same time, the demand for battery energy storage systems (BESSs) is accelerating, driven by Vietnam's abundant renewable energy (RE) potential, particularly in solar and wind power. However, owing to the intermittent nature of these energy sources, storage solutions are required to ensure continuous electricity supply.
