

# **Wall-mounted energy storage power supply and inverter**

## Overview

---

How does a wall-mounted energy storage inverter work?

A: A wall-mounted energy storage inverter works in conjunction with solar panels to convert the DC (direct current) electricity generated by the panels into AC (alternating current) electricity that can be used to power your home's appliances.

What is hbp3300 ptlv energy storage system ESS?

HBP3300 PTLV energy storage system ESS solution, including 6KW 48vdc solar inverter and a lithium battery storage with 5kwh-25kwh energy optional. It is a one-stop service system can manage your solar home battery storage system more conveniently. Flexible modular system can be designed based on house daily consumption.

What is flexible modular power system?

Flexible modular system could be designed based on house dailyconsumption. ESS is easily to select the priority of power supply, it allows you to store the energy to self-consumption and sell to the grid. ESS is the best emergency energy solution for villas, apartments,hotels,shopping centers. Modular Power. Anytime, Anywhere.
