Wellington Lead Acid Energy Storage Station

Overview

Who owns the Wellington Battery energy storage system?

It now fully owns the battery storage facility. AMPYR Australia is now the full owner of the Wellington Battery Energy Storage System (BESS) after acquiring Shell Energy Australia's 50% stake in the project's stage 1. In a statement, AMPYR said it had been joint venture partners with Shell in the New South Wales project since October 2022.

What is the Wellington Battery energy storage system (BESS)?

The Wellington Battery Energy Storage System (BESS) is planned to be developed in the central west New South Wales (NSW), Australia. The project will comprise a grid-scale BESS with a total discharge capacity of around 400MW. AMPYR Australia, a renewable energy assets developer in the country, owns 100% of the BESS project.

What is the Wellington Stage 1 battery energy storage system?

The Wellington Stage 1 Battery Energy Storage System (or BESS) will have a capacity of 300 megawatts and store 600 megawatt-hours of energy and is expected to start working in 2026. Once running, this battery will help make renewable energy more reliable and affordable for homes and businesses, especially as more industries need clean power.

Will Wellington Bess be the largest battery storage project in NSW?

Once operational, it will have a capacity of 1,000-megawatt hours (MWh) of green power. This will make Wellington BESS one of the largest battery storage projects in NSW. Wellington is being constructed at 6773 and 6909 Goolma Road, Wuuluman NSW 2820.

Wellington Lead Acid Energy Storage Station

Wellington Lead Acid Energy Storage Station

What is the Wellington Battery energy storage system? The Wellington Battery Energy Storage System comprise up to 6,200 pre-assembled battery enclosures with lithium-ion battery packs ...

The Best of the BESS: The Role of Battery Energy Storage ...

Oct 24, 2025 · Explore the transformative role of battery energy storage systems in enhancing grid reliability amidst the rapid shift to renewable energy.

Wellington Battery Energy Storage System, ...

Feb 14, 2025 · The Wellington Battery Energy Storage System (BESS) is planned to be developed in the central west New South Wales (NSW), ...

Wellington Energy Storage Station: The Giant Battery ...

Renewable energy developers googling "large-scale battery storage ROI" Urban planners searching "grid stability solutions 2025" Curious citizens typing "what's that giant warehouse ...

AMPYR Australia Secures Funding for Wellington Stage 1 BESS

Jul 10, 2025 · AMPYR Australia has obtained over A\$340 million (\$221 million) in funding for its 300MW/600MWh Wellington Stage 1 battery energy storage system (BESS) in regional New ...

Wellington \$340m battery system secures full funding for ...

Jul 9, 2025 · The Wellington Stage 1 Battery Energy Storage System (or BESS) will have a capacity of 300 megawatts and store 600 megawatt-hours of energy and is expected to start ...

Wellington Battery Energy Storage System, Australia

Feb 14, 2025 · The Wellington Battery Energy Storage System (BESS) is planned to be developed in the central west New South Wales (NSW), Australia.

AMPYR Australia takes over Shell's 50% stake ...

Feb 5, 2025 · It now fully owns the battery storage facility. AMPYR Australia is now the full owner of the Wellington Battery Energy Storage System ...

Gateway by ICN

AMPYR is developing the Bulabul Battery in Wellington, Central West New South Wales, to support Australia's transition to a cleaner, more reliable energy future. Bulabul Battery ...

AMPYR Australia Secures Funding for ...

Jul 10, 2025 · AMPYR Australia has obtained over A\$340 million (\$221 million) in funding for its 300MW/600MWh Wellington Stage 1 battery ...

AMPYR Australia takes over Shell's 50% stake in Wellington ...

Feb 5, 2025 · It now fully owns the battery storage facility. AMPYR Australia is now the full owner of the Wellington Battery Energy Storage System (BESS) after acquiring Shell Energy ...

Wellington South Battery Energy Storage System

Feb 23, 2024 · The project incorporates a large-scale battery energy storage system (BESS) with a discharge capacity of 500 megawatts (MW), along with connection to the Wellington ...

2025_AMPYR_Project_Factsheet_Wellington

Apr 8, 2025 · Wellington Battery The Wellington Battery Energy Storage System (BESS) will store excess renewable energy ready for use by homes and businesses during peak times. BESS ...
