

# **Wellington Outdoor Communications Power BESS Location**

## Overview

---

What is the Wellington Battery energy storage system (BESS)?

The Wellington Battery Energy Storage System (BESS) is planned to be developed in the central west New South Wales (NSW), Australia. The project will comprise a grid-scale BESS with a total discharge capacity of around 400MW. AMPYR Australia, a renewable energy assets developer in the country, owns 100% of the BESS project.

What is the Wellington Bess project?

“The Wellington BESS will contribute towards supporting Australia’s journey towards a more sustainable and reliable energy future,” said RJE Global in a statement. The project sits within the Dubbo Regional Council LGA and is part of broader efforts to boost storage infrastructure as renewable penetration increases across the NEM.

Where is the Wellington Battery energy storage system located?

The Wellington BESS will be located within the CentralWest Orana REZ. Image: Ampyr Australia. Renewable energy developer Ampyr Australia has secured Shell Energy Australia’s remaining stake in the 1GWh Wellington battery energy storage system (BESS) in New South Wales.

What is the Wellington Stage 1 Bess?

“Supported by our high-calibre partners, ZEN Energy and Fluence, the Wellington Stage 1 BESS will play a critical role in an increasingly renewable grid whilst boosting Australia’s energy storage capacity and supporting the delivery of low-cost energy to major users.” Image credit: iStock.com/Galeanu Mihai
