

Wellington energy storage solar container lithium battery chassis customization

Overview

What makes our Wellington storage facility special?

Our Wellington storage facility is extra special as it has multiple access points to the storage units and undercover loading areas to protect you from the Wellington weather.

What is a containerized energy storage system?

The Containerized energy storage system refers to large lithium energy storage systems installed in sturdy, portable shipping containers, which usually range from 5ft, 10ft, 20ft, and 40ft, and mainly focus on 50Kwh to 10Mwh.

What is battery energy storage system?

Battery Energy Storage System is very large batteries can store electricity from solar until it is needed, and can be paired with software that controls the charge and discharge.

What is all-in-one container energy storage system?

Container Energy Storage System (CESS) is a modular and scalable energy storage solution that utilizes containerized lithium-ion batteries to store and supply electricity.
