# Where are the battery testing sites in Italy

## Overview

---

What is the largest battery testing centre in Italy?

For testing, the 8,000-square-metre centre has 32 climate-controlled test cells – eight of which are smaller and designed for battery cell testing, and 24 of which are walk-in and can accommodate entire battery packs. According to the company, this makes it “the largest battery technology centre in Italy and one of the largest in Europe”.

What does a battery technology centre in Turin do?

More than 100 employees at the battery technology centre in Turin will perform and monitor climatic stress tests, life tests, the development and calibration of software for battery management systems, and the degradation of batteries and cells for analysis and benchmarking.

Does Intertek have a battery centre in Italy?

This new state-of-the-art facility in Italy complements Intertek’s existing European battery centres of excellence in the Nordic countries, the UK and Germany, allowing the company to bring its expertise from more mature battery markets to Italy and the wider Southern Europe region.

Where is stellantis' first battery technology center located?

TURIN, ITALY, September 8, 2023 – Stellantis today celebrated the grand opening of its first Battery Technology Center, at the Mirafiori complex in Turin, Italy.
