Who invested in the Bolivian energy storage project

Overview

Does China support hydropower projects in Bolivia?

In line with the push for environmentally friendly Belt and Road Initiative (BRI) infrastructure projects and Bolivia's former President Evo Morales' "2025 Patriotic Agenda" to transform Bolivia into a regional energy hub, China has supported six hydropower energy projects in the country.

What's going on with Bolivia's largely untapped lithium reserves?

Sources In a significant move towards the development of Bolivia's largely untapped lithium reserves, Chinese battery giant CATL has confirmed a \$1.4 billion investment. The deal, which was cemented on Sunday, is a continuation of a partnership with the Bolivian government that was established in January.

Why did CATL invest \$1.4 billion in Bolivia?

Chinese battery giant CATL, a global leader in electric vehicle batteries, has confirmed a \$1.4 billion investment. This investment aims to develop Bolivia's untapped lithium reserves and marks a new phase in the CATL-Bolivia partnership. The agreement focuses on Bolivia's salt flats, known for their vast lithium resources.

Why is Bolivia a 'energy heart of Latin America'?

Morales envisioned Bolivia becoming the "energy heart of Latin America," and saw hydroelectric power as the means by which to achieve this. This is in part due to the country's geography, home to the elevated Andean mountains and the Amazon rainforest, a landscape that contains a large potential for hydropower production.

Who invested in the Bolivian energy storage project
