Wholesale dcc circuit breaker in Brisbane

Overview

What types of circuit breakers do iSupply electrical supply?

At iSupply Electrical, we supply a comprehensive range of DC circuit breakers designed for various voltage ratings and current capacities, from low-voltage automotive applications to high-voltage solar PV systems.

What are DC circuit breakers used for?

DC circuit breakers are essential for solar photovoltaic systems, battery energy storage systems, marine electrical installations, electric vehicle charging stations, telecommunications equipment, data centers with DC power distribution, railway systems, and industrial machinery operating on direct current.

What is a MCB circuit breaker?

Circuit Breaker 20A 2 x 4 Pole MCB DC1000V (Non polarised) 8 pole Waterproof. DC circuit breakers provide essential circuit protection for direct current electrical systems in solar installations, marine applications, automotive systems, and industrial equipment.

What types of circuit breakers are available?

Our inventory includes miniature circuit breakers (MCBs), moulded case circuit breakers (MCCBs), and specialized DC-rated breakers suitable for off-grid power systems, battery banks, electric vehicle charging infrastructure, and renewable energy installations.
