

# **Wholesale Iv switchgear panel in Czech-Republic**

## Overview

---

What is LV switchgear panel?

The LV Switchgear panel does not take up much of your room space and is also quite durable. Apart from serving as a virtual device in protecting your appliances from short circuits, LV Switchgear Panel also helps in the isolation of parts of installation as well as remote local switching.

Where are switchgears made?

The manufacturing of switchgears has a long tradition in Teplice. Since 1995 we produce low voltage switch gears and concrete transformer stations in our factory.

Who makes low voltage Switch gears & concrete transformer stations?

Since 1995 we produce low voltage switch gears and concrete transformer stations in our factory. Techco-Electrics manufactures low voltage cubicle switchgears and distribution panels, which are used for electrical power distribution in heavy industry, power stations, office- and public buildings, infrastructure projects and the railway industry.

What is the difference between LV and MV panels?

LV panels handle voltages up to 1000V AC, while MV panels manage voltages from 1kV to 36kV AC, catering to diverse industrial and infrastructure needs. JV Power Technologies' panels adhere to international standards, emphasizing safety and performance.

## Wholesale lv switchgear panel in Czech-Republic

---

Spálovský a.s.

Service and repair of LV switchgear in the Czech Republic and abroad. Complete design and technical solutions in the field of MV switchgear SM 6 Schneider Electric.
