Wholesale main power breaker in New-Zealand

Overview

What are nhp circuit breakers?

NHP's range of circuit breakers features a complete range of quality products for the protection of an electrical installation against overcurrent's and short circuits in industrial, commercial, and domestic applications.

What is a circuit breaker?

Explore circuit breakers, the foundation of safe power distributions and the main protection from electrically-caused fires. Protect each line carrying energy or supplying appliances by choosing the correct sized circuit breaker, that will automatically disconnect in the event of a short circuit, or a cable overload.

What are the different types of circuit breakers?

The range of circuit breakers includes air circuit breakers (ACBs), moulded case circuit breakers (MCCBs) and miniature circuit breakers (MCBs). Earth leakage relays detect ground faults and abnormal leakage currents. These protective measures ensure circuit integrity, prevent equipment failure, and enhance overall electrical system safety.

What is a miniature circuit breaker?

NHP's Miniature Circuit Breakers offer a broad range of current ratings from 0.5A to 125A; typically in 6kA and 10kA fault levels for domestic light commercial applications to commercial, industrial and mining solutions. Accessories include auxiliaries, shunt trip, pin terminals, busbar comb and captive locks.
